SKILLS

Languages: Python, JavaScript, SQL

Frameworks: Django, React, Node.js

Data: PostgreSQL, MongoDB, Redis

Tools: Git, Docker, AWS, Linux, Postman

PROJECTS

Attendance Tracker - Django, PostgreSQL (Feb 2026 - Apr 2026)

- Built a QR-based attendance system now recording 1,800 entries a week
- Designed a PostgreSQL schema with 7 tables, cutting report time to 400ms
- Automated weekly summary emails, saving staff roughly 5 hours a week

Recipe Search API - Node.js, MongoDB (Oct 2025 - Dec 2025)

- Developed a REST API serving 12,000 recipes with full-text search
- Reduced median response time from 900ms to 120ms by adding Redis caching
- Wrote 30 unit tests with Jest, reaching 88% coverage

EXPERIENCE

Backend Intern, Northwind Labs, Pune (Jun 2025 - Aug 2025)

- Migrated 22 API endpoints from Flask to Django, cutting errors by 40%
- Fixed 35 reported bugs and cleared the triage backlog two weeks early

EDUCATION

B.Tech Computer Science, Pune Institute of Technology (2022 - 2026)

Coursework: Data Structures, Operating Systems, DBMS, Computer Networks
